 Notice of Allowability

DETAILED ACTION

Examiner's Statement of Reasons for Allowance

Claims 1-32 are allowed. The following is an examiner's statement of reasons for allowance: The examiners closest references to the applicant's invention, Toyoda (US 6,381,376) pertaining to claims 1-2, 10-11 and 19-20 and Toyoda in view of RICOH (JP 2000-103117) pertaining to claims 3-9, 12-18 and 21-32, do not teach the following claim limitations:

*An image forming apparatus that includes a pattern detecting device configured to detect whether or not a pattern is constructed with **a lengthwise line of a single dot width** on a basis of a pattern of respective multi-value data of a target pixel and circumferential pixels adjacent to the target pixel in a main scanning direction. A printing device is configured to print **size-reduced** printing dots of the lengthwise line of the single dot width detected by the pattern-detecting device.*

The examiner notes that because neither of the examiner's best references (Toyoda or RICOH) teach of a pattern constructed with **a lengthwise line of a single dot width**, or a print device printing **size-reduced** printing dots of a lengthwise line of a single dot width detected by the pattern-detecting device, that claims 1-32 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
